## LIFE IN THE FAST LANE

SF Sonic presents the full range of storage power solutions manufactured at its state of art factories. The rugged power packed range starts from cars, SUVs, trucks, tractors, construction vehicles, two wheelers and extends to batteries for e-rickshaws, gen-sets, inverters and solar applications. Whatever the application SF Sonic ensures that you not only get the fail safe reliability of new age technology but also more power per crank, year after year.

### SF SONIC ADVANTAGE:

- **Plates with Special Paste Formulation:** Repetitive Cranking & Longer life
- **Grid alloy with improved corrosion resistance:** Low water loss and longer life
- **Polyethylene separator along with textured glass mat double clad separator:** Withstand high vibration in arduous road conditions
- **Venting through filter disc:** Avoid external spark and reduce water loss
- **Quick rechargability in service:** Special paste recipe enables quick recharging of batteries

### AUTO RIDER SPECIFICATION:

- **Advanced hybrid alloy system:** Withstand arduous weather and road conditions
- **Special grid design and paste formulation:** Ensures reliable performance where repetitive starting is inevitable for three wheeler application, ensures long and trouble free services
- **Rugged polypropylene containers:** Fortified against damages from bumps and vibrations
- **PE envelope & glass mat assembly:** Robust construction which enable battery to withstand high vibration and minimize the possibility of through shorts, which causes premature failure of battery
- **Spill proof side vented design:** Keeps surface of battery clean

**BATTERY DIMENSION CHART**

BATTERY TYPE	AH CAPACITY	BATTERY LAYOUT	WARRANTY* (IN MONTHS)	BATTERY DIMENSION (L X W X H) MM
AR540-32R	32	R	18	197x 129 x 227
AR540-40L	40	L	18	197x 129 x 227
AR540-60L	60	L	18	260 x 173 x 225
