HAR E-RICKSHAW KA DOST

SF Sonic presents the full range of storage power solutions manufactured at its state of art factories. The rugged power packed range starts from cars, SUVs, trucks, tractors, construction vehicles, two wheelers and extends to batteries for e-rickshaws, gensets, inverters and solar applications. Whatever the application, SF Sonic ensures that you not only get the fail safe reliability of new age technology but also more power per crank, year after year.

SF SONIC ADVANTAGES:

- In PSoC (partial state of charge), SF Sonic batteries perform better. This means more assured performance in frequent multiple cranks.
- SF Sonic batteries have SUPERIOR CHARGE ACCEPTANCE. Which means, from the state of PSoC, our batteries recover to full charge quicker.
- In cold conditions, SF sonic batteries' performance is more than adequate and completely dependable.
- The superior power performance of SF Sonic batteries, as detailed above, is the result of a proprietary and homegrown alloy, which is highly corrosion-resistant.

VAAHAK SPECIFICATION:

VAAHAK is designed for tough conditions and rough roads to give long lasting power

- Advance hybrid alloy system that is best suited to withstand high temperatures prevalent in India
- PE envelope and Glass mat assembly for robust construction
- Double Clad Separators for better vibration resistance
- Thicker grids with high surface area ensure heavy deep-discharge endurance
- Very low maintenance-Unmatched SF technology ensures minimum water loss and minimizes the requirement of frequent top ups
- High charge acceptance ensures quick recharge from a deep discharge state
- High charge retention and shelf life

BATTERY DIMENSION CHART

BATTERY TYPE	AH CAPACITY	BATTERY LAYOUT	WARRANTY* (IN MONTHS)	BATTERY DIMENSION (L X W X H) MM
12SV88L	88	L	6	410 x 176 x 233
