GET THE FLASH START ADVANTAGE!

SF Sonic presents the full range of storage power solutions manufactured at its state of art factories. The rugged power packed range starts from cars, SUVs, trucks, tractors, construction vehicles, two wheelers and extends to batteries for e-rickshaws, gen-sets, inverters and solar applications. Whatever the application SF Sonic ensures that you not only get the fail safe reliability of new age technology but also more power per crank, year after year

SF SONIC ADVANTAGE:

- **Plates with Special Paste Formulation:** Repetitive Cranking & Longer life
- **Grid alloy with improved corrosion resistance:** Low water loss and longer life
- **Polyethylene separator along with textured glass mat double clad separator:** Withstand high vibration in arduous road conditions
- **Quick rechargeability in service:** Special paste recipe enables quick recharging of batteries
- **Spill proof side venting design:** Maintenance free feature

FLASH START SPECIFICATION:

- **Calcium-Silver Alloy:** Increase corrosion resistance and heat tolerance, while reducing bench charging frequency
As a result battery lasts longer and maintains its starting power over time
- **Corrosion resistant Calcium-Calcium grid:** High cranking power, better heat tolerance, and vibration resistance
- **Fully automated terminal post bonding:** Ensure deeper and more consistent bond with dimensional uniformity and lower resistance for longer life
- **Side venting system:** Designed to improve battery safety and prevent corrosive acid spills

OTHER ADVANTAGES :

- Built-in-flame arrestor
- Superior drain-back design
- Improved gas exist profile
- Reduces acid spewing in overcharge
- **Sophisticated design:** Provide improved fitment, particularly in vehicles with sloping hood lines and top hold-downs

BATTERY DIMENSION CHART
