HAR E-RICKSHAW KA DOST

SF Sonic presents the full range of storage power solutions manufactured at its state of art factories. The rugged power packed range starts from cars, SUVs, trucks, tractors, construction vehicles, two wheelers and extends to batteries for e-rickshaws, gensets, inverters and solar applications. Whatever the application SF Sonic ensures that you not only get the fail safe reliability of new age technology but also more power per crank, year after year.

SF SONIC ADVANTAGE:

- **Plates with Special Paste Formulation:** Repetitive Cranking & Longer life
- **Grid alloy with improved corrosion resistance:** Low water loss and longer life
- **Polyethylene separator along with textured glass mat double clad separator:** Withstand high vibration in arduous road conditions
- **Venting through filter disc:** Avoid external spark and reduce water loss
- **Quick rechargeability in service:** Special paste recipe enables quick recharging of batteries

VAAHAK SPECIFICATION:

VAAHAK is designed for tough conditions and rough roads to give long lasting power

- Advance hybrid alloy system that is best suited to withstand high temperatures prevalent in India
- PE envelope and Glass mat assembly for robust construction
- Bottom anchoring of the groups for better vibration resistance
- Thicker grids with high surface area ensure heavy deep-discharge endurance
- Very low maintenance-Unmatched SF technology ensures minimum water loss and minimizes the requirement of frequent top ups
- High charge acceptance ensures quick recharge from a deep discharge state
- High charge retention and shelf life.

BATTERY DIMENSION CHART
